

Connection #25

This is the 25th block for 25connections!

Get your dice rolling - as often as indicated on the **block diagram on the next page** to obtain the marks for the edges or the connections between the individual blocks.

Important: The 25connections blocks share several edges! The block diagrams will indicate clearly whenever you have to transfer marks from previous blocks!

| | | | | |
|----|----|----|----|----|
| 1 | 2 | 5 | 10 | 17 |
| 3 | 4 | 6 | 11 | 18 |
| 9 | 8 | 7 | 12 | 19 |
| 16 | 15 | 14 | 13 | 20 |
| 25 | 24 | 23 | 22 | 21 |

Now throw the dice once more to determine the **theme of this 25connections block**:

1. Use only straight lines to join your marks.
2. Use only straight lines to join your marks and add a circle which does not touch the edges.
3. Use only straight lines to join your marks plus two semi-circles which originate and end on one of the block edges and which intersect at least one of the lines drawn previously.
4. Use only straight lines to join your marks plus a square which does not touch the edges, but which intersects at least two of the lines drawn previously.
5. Use only straight lines plus two „half squares“ which intersect at least two of lines drawn previously and which originate and end on one of the block edges.
6. Joker: Choose option 1, 2, 3, 4, or 5.

Have fun!

This is the last block for the 25connections series! To us, it seems almost like yesterday that we started this activity and can hardly believe that it is "over" now!

Over? Wait a minute...

We would love to see pictures of what you have made based on 25connections!

There are plans to include finished 25connections projects in our upcoming **MYoD travelling exhibition** which will start informally in autumn 2017 at the show of a Bavarian quilt group and will get into full swing in the course of 2018.

If you'd like to be part of this, get in touch with us: info@quilt-around-the-world.com

Upper edge: **Transfer marks form block 16 (lower edge).**

Left edge: **Throw the dice twice** and make the marks directly in the block.

Right edge: **Transfer marks form block 24 (left edge).**

Lower edge: **Throw the dice twice** and make the marks directly in the block.

What is your personal association with nature? Tell your story with a block!

We invite you, dear quilters from around the world, to be part of our 4th International Block Swap (IBS4). Make 9 identical blocks on the theme "Back to Nature" and send them to us. All participants will be grouped into international teams. You will receive one of your own blocks plus 8 different blocks from quilters from around the world.

Join in and be part of IBS4, our new international quilt activity!
